Welcome to GISUP 2014, For the future !!

Dear colleagues and friends from Asia !

We are so glad that we can meet again and again at Nagasaki. As you can see, Nagasaki is one and only city where had been opened its door for importing western culture in the period of national isolation in Japan. From this historical site Nagasaki, we planned to think about the globalized and informative generation and science for the future through international workshop.

If you visit to the historical site "Dejima and Glover-garden" in Nagasaki, you can easily understand how wonderful the multicultural and international exchanges are !! In Peace Park, you can pray for our peaceful future.

Everybody, let's pray, talk and spend goods time at Nagasaki with Asian friends. I believe that our collaboration and cooperation will lead us to fruitful future.
